

## Stockholm

The Benchmark Workshop 2017 will be held at KTH Royal Institute of Technology in the city of Stockholm, the capital of Sweden. Stockholm was founded in the year 1252 and consists of 14 islands around one of Europe's largest and best-preserved mediaeval city centers, the city is stunningly located by the Baltic Sea.

KTH is one of Europe's leading technical and engineering universities, as well as a key center of intellectual talent and innovation. KTH is Sweden's largest technical research and learning institution and home to students, researchers and faculty from around the world dedicated to advancing knowledge.

### General Organizer

*Committee on Computational Aspects of Analysis and Design of Dams*

#### Chairman

ESCUDE-BUENO, I. Spain

#### Vice-Chairman

MAZZA' G. Italy

#### Technical Advisory Team

|                               |                              |
|-------------------------------|------------------------------|
| RESTELLI, F.                  | Argentina                    |
| LOPEZ, F.                     | Australia                    |
| ZENZ, G.                      | Austria                      |
| CURTIS, D.                    | Canada                       |
| CHEN, S.                      | China                        |
| MARULANDA, C.                 | Colombia                     |
| VARPASUO, P.                  | Finland                      |
| TANCEV, L.                    | Form. Yug. Rep. of Macedonia |
| FROSSARD, E.                  | France                       |
| BEETZ, U.                     | Germany                      |
| DAKOULAS, P.                  | Greece                       |
| GHAEMIAN, M.                  | Iran                         |
| MEGHELLA, M.                  | Italy                        |
| NOGUCHI, Y.                   | Japan                        |
| ANDERSEN, R.                  | Norway                       |
| POPOVICI, A.                  | Romania                      |
| GLAGOVSKY, V.                 | Russia                       |
| MINARIK, M.                   | Slovakia                     |
| HASSANZADEH, M.               | Sweden                       |
| GUNN, R.                      | Switzerland                  |
| OZEN, O.                      | Turkey                       |
| MATHEU, E.                    | United States                |
| CARRERE, A. (HONORARY MEMBER) | France                       |
| FANELLI, M. (HONORARY MEMBER) | Italy                        |

#### Local organizing committee (LOC)

KTH Royal Institute of Technology  
 Department of Civil and Architectural Engineering  
 Prof. Johan Silfwerbrand  
 Dr. Richard Malm (chairman of LOC)  
 Adj. Prof. Manouchehr Hassanzadeh  
 Adj.Prof. Erik Nordström  
 Tech.Lic Tobias Gasch  
 M.Sc. Daniel Eriksson  
 M.Sc. Rikard Hellgren

## 14<sup>th</sup> International Benchmark Workshop on Numerical Analysis of Dams

6<sup>th</sup> – 8<sup>th</sup> September 2017  
 Stockholm, Sweden

First call  
*Preliminary information*

Updated information on homepage:  
[www.icold-bw2017.conf.kth.se](http://www.icold-bw2017.conf.kth.se)

## General

The design and maintenance of existing dams represent a challenge for the whole engineering community. In this context, the ICOLD Committee on “Computational Aspects of Dam Analysis and Design” has performed noteworthy contribution to the diffusion of knowledge in the specific field of numerical modelling. During its long activity, the Committee has organized 13 Benchmark-Workshops with the aim to offer dam engineers the opportunity to compare experiences in the proper use of numerical analyses.

The 14<sup>th</sup> Benchmark-Workshop will provide an excellent opportunity for engineers, researchers and operators to present and exchange their experiences on the use of numerical modelling for design, performance evaluation and safety assessment of dams.

## Topics:

- Theme A:** Thermal cracking of a concrete arch dam
- Theme B:** Static and seismic analysis of an arch gravity dam
- Theme C:** Seismic analyses of Embankment dams
- Theme D:** Probabilistic analysis of concrete dams

**Open Theme:** Choice of the contributor

## Preliminary Program

**Venue:** KTH Royal Institute of Technology, Stockholm, Sweden

### Wednesday, 6<sup>th</sup> September 2017

[Registration](#)

Theme A - Concrete Dam

[Lunch](#)

Theme B – RCC Dam

Theme C - Embankment Dam

[Welcome dinner](#)

### Thursday, 7<sup>th</sup> September 2017

Theme C - Embankment Dam (continued)

[Lunch](#)

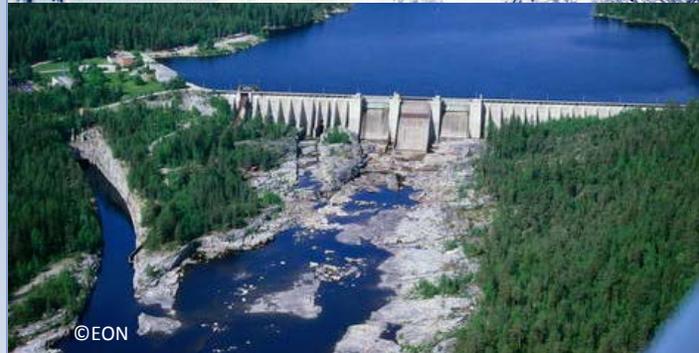

Theme D – Risk assessment

Open Theme – Free contributions

[Closing dinner](#)

### Friday, 8<sup>th</sup> September 2017

Excursion

## Call for Contributions

This invitation is intended to announce the upcoming International Benchmark Workshop on numerical analyses of dams in September 2017 and its selected themes. Detailed information and input data on the themes will be available for participants in December 2016.

Participants intending to present a contribution to any of the topics are invited to send their expression of interest prior to February 28<sup>th</sup> 2017. The information should include

- Theme of choice (A ÷ D or Open Theme)
- Authors name, affiliation and mailing addresses
- Phone number to the contact person

## Important dates

**November 2016:**

*Theme proposals available on the homepage*

**December 2016:**

*Handout of input data for the Benchmark themes*

**February 28<sup>th</sup> 2017:**

*Please announce your participation in themes A ÷ D or Open Theme before the end of February.*

**June 30<sup>th</sup> 2017:**

*Deadline for paper submission of Contributions*
